

Offering free web hosting and domain names for non-profits is one way Aeneas is pleased to contribute to the West Tennessee community where we have our roots. We ask that the following requirements be met when we're donating free services for non-profit organizations:

- 1) Although we are proud to serve non-profit organizations in our community, as a business, we can't offer service indefinitely for free. We offer a maximum of 2 years free service for web hosting services. After 2 years, we are happy to offer web hosting service to non-profits at a tremendously discounted pre-pay price of \$100/year. That's about \$9/month, and a great savings over our average commercial packages, which can run from \$35-\$50/month.
- 2) This service is offered under the "**tn.org**" domain. You are free to choose your domain name, and it will appear in the following format - <http://yourdomain.tn.org>.
- 3) We offer a maximum of 500MB with our free web-hosting. If your needs exceed that we'd be happy to speak with you about a discounted price for more storage capacity.
- 4) All e-mail contacts publicized on your Aeneas hosted website should be aeneas.com e-mail addresses. We offer 5 Aeneas e-mail addresses to your organization for free.
- 5) Aeneas will provide a small, non-intrusive "hosted by" logo which must be placed on your website with a link to the Aeneas homepage.
- 6) Service doesn't include any website management or assistance with design.

We encourage your organization to look at Aeneas's wide range of Internet, telephone and data services. Growing our customer base is what allows us to continue offering these free services. We look forward to working with you.

Sincerely,
